

Abstract of the Disclosure**PROCESSING EDIT DECISION LIST DATA**

5 A processing system for processing data representing edit decision lists
having edit decisions with edit data, representing the type of edit to take
place, and frame range data, representing the frames over which the edit is
to take place. An input device applies input data to the processing system in
response to user manipulations specifying changes in the edit data. The
10 processing device is configured to identify an associated function of the
identified edit data, calculate modifications to the range data in response to
the identified function and write the modified range data to storage.
